The West German Patent 30 11 959 which was accepted by the Federal Patent Court on October 27, 1983 with amended description and claims, was published on December 22, 1983.

Dr. Hach prepared an opposition letter dated April 18, 1983 and the English translation was sent to the Law Department in Richmond and Fish & Neave in New York. They have approved Dr. Hach's arguments (Telex of June 22, 1983). In his letter dated June 27, 1983, Dr. Eichmann gave his comments on Dr. Hach's arguments.

In our telephone conversation of today, Dr. Hach and I agreed to submit the opposition as such to the German Patent Office.
